

✔ HackKU23 Hackathon Project has successfully been registered.

Registration Details

Thank you for registering your application! To avoid any errors during implementation, we recommend that you review the following app registration details before continuing.

OAuth2

When making an OAuth2 access token request, your `client_id` and `client_secret` are required in the authorization header. You must use one of the following redirect URIs when authenticating a customer using the Authorization Code grant type.

⚠ Your `client_secret` can only be accessed by request once you click Continue. Select the print icon to print your app details and secret to pdf.

Name	Details
client_id	hackku23hackathonproject-d02c1e419e98d6a47a8387ebd2bfebcc2873333728189594211
client_secret	Q6v8Y_Pz6duCSKJ9Nf8CWsOmgRWljzhDS3JygfoG ⚠
redirect_uri	

Permission

Your application is now granted access to the following APIs. When requesting an OAuth2 access token, you must provide the scopes associated with the registered API you need to access.

API	Scopes
Locations (Public)	
Products (Public)	product.compact

Your application now also has access to the following grant types and additional scopes.

Name	Details
------	---------

Grant Type	authorization_code, client_credentials, refresh_token
------------	---

Other Scopes
